**in the specialty 292 «International Economic Relations»**  
**of the National Aviation University**

Educational and professional program «International Business» training of specialists of the first (bachelor's) level of higher education in the specialty 292 «International Economic Relations», developed by the working group of the International Economic Relations and Business Department of the National Aviation University.

The peer-reviewed educational and professional program is aimed at training of specialists capable of solving specialized complex practical problems in the field of international business by generating innovative ideas and sound solutions based on the integration and internationalization of education, research and practice, providing in-depth study of foreign languages and knowledge of international trade, international finance, accounting for international commercial transactions, international economic law, international investment activities, diplomatic relations, organization and planning of international economic activities, development of international marketing strategy of companies operating in various fields, especially in aerospace, business skills according to cultural context and features different regions of the world, taking into account the complexity and uncertainty of conditions in the field of international economic relations.

The general and professional competencies contained in the educational-professional program are relevant and meet the modern requirements of the labour market. The study of academic disciplines and internships by students gives the opportunity to fully achieve the program learning outcomes. The curriculum for the preparation of applicants fully meets the objectives of the educational and professional program «International Business».

Educational and professional program «International Business» includes the study of two foreign languages of the student's choice (the first - English, French or Chinese, the second - Arabic, Chinese, Turkish, Japanese, Spanish, German or French), translation and professional practices on the basis of domestic and foreign companies.

The structural and logical scheme of studying disciplines, their list and scope meet the requirements of quality training of applicants for higher education of the first (bachelor's) level of higher education in specialty 292 «International Economic Relations» and are designed to ensure compliance of program learning outcomes with employers.
