

REVIEW-FEEDBACK

to the educational and professional program "International Business" for training the applicants for the second (master's) level of higher education field of knowledge 29 "International relations", specialty 292 "International economic relations", developed by the Department of International Economic Relations and Business of National Aviation University

The modern development of international economic relations and global business communications requires highly qualified specialists who are able to solve complex tasks and make sound systemic decisions on foreign economic issues in the area of international business. In conditions where the entire world business is subject to unified rules - international norms and requirements of international law and diplomacy, education aimed at training specialists capable of analyzing and predicting changes in national and global markets, developing effective strategies for the foreign economic activity of enterprises, becomes critically important. In this context, preparation of highly qualified personnel in this field with a full cycle of training is of particular importance. This is the task set by the educational and professional training program for students of the second (master's) level of higher education "International Business", specialty 292 "International Economic Relations", branch of knowledge 29 "International Relations", developed in accordance with modern requirements by the Department of International Economic Relations and Business of the National Aviation University, which has necessary experience, powerful teaching potential and modern material and technical base.

This program meets the needs of modern economic environment and the requirements of the time and includes the main and variable parts of theoretical training and a practical component that allows students to consolidate the acquired theoretical knowledge and develop the competencies set by the program.

The specified general and professional competencies reflected in the educational and professional program meet the modern requirements of the labor market, which makes it relevant for students who wish to specialize in this field. The structure of the curriculum corresponds to the objectives of the program and contributes to the achievement of the specified learning outcomes.

In the reviewed educational and professional program, general and professional competencies are defined, the scope and description of the educational program are given, the normative content of the training of students of higher education is given, formulated in terms of learning outcomes, the form of attestation of students and requirements for the system of internal quality assurance of higher education are defined.

The curriculum for master's training of the International Business Institute fully corresponds to the tasks of the educational and professional program.

The sequence of study of educational disciplines, the plan and schedule of the educational process, the list and volume of normative and selective educational components fully correspond to the structural and logical scheme of the training of

higher education applicants and are designed to contribute to ensuring the compliance of the educational program results with the requests of potential employers.

The educational and professional program "International Business" meets modern requirements and is an important step in the preparation of qualified specialists for the field of foreign economic activity and international economic relations. Considering the above-mentioned factors and the relevance of training specialists in the field of international regulation of economic relations, the educational and professional program "International Business», specialty 292 "International Economic Relations" of the National Aviation University is an important contribution to the training of qualified specialists who will be able to confidently meet the requirements of modern global market and make their own contribution to the development of international economic relations and the global business environment.
