#### RECOMMENDATION

to the educational and professional program "International Strategic Communications"  
fields of knowledge 29 "International relations"  
major 291 "International relations,  
public communications and regional studies"  
first (bachelor's) level of higher education

Educational and professional program "International Strategic Communications" major 291 "International Relations, Public Communications and Regional Studies" of the first (bachelor's) level of higher education, presented by the Department of International Relations and Strategic Studies of the Faculty of International Relations of State University "Kyiv Aviation Institute" and developed considering modern market requirements labor.

The goal of the educational and professional program is fully consistent with the goal and strategy of State University "Kyiv Aviation Institute" regarding the training of specialists capable of solving complex specialized tasks and practical problems, conducting research in the field of information and analytical activities, in particular, foreign policy analysis using the capabilities of international information systems and technologies in prognostication, carrying out analytical work in the international information space, taking into account the needs of the aviation and space industry. The peer-reviewed educational and professional program fully considers the requirements of higher education and provides for the adaptation of higher education applicants to dynamic processes in the educational field and in the field of international relations in general.

The implementation of the educational and professional program "International Strategic Communications" allows to ensure the achievement of the planned learning outcomes and to acquire the appropriate competences by the students of higher education. The developers of the educational and professional program, in addition to the competencies provided by the standard of higher education, added their own, which demonstrate the peculiarities of the educational program, namely the ability to identify potential information challenges and threats in the international airspace and to speak foreign languages at a professional level, to perform oral and written professional translation.

The sequence of studying disciplines, the list and amount of compulsory and optional educational components correspond to the structural and logical scheme of training of higher education applicants and

contribute to ensuring the compliance of program learning outcomes with employers' requests. The requirements for the content, updating and implementation of the competence approach of the educational and professional program create qualitative prerequisites for the comprehensive development of the acquirer's personality.

Thus, the educational and professional program "International Strategic Communications" major 291 "International Relations, Public Communications and Regional Studies" of the first (bachelor's) level of higher education, presented by the Department of International Relations and Strategic Studies of the Faculty of International Relations National Aviation University, fully corresponds to modern the level of development of science and practice of educational activity, which allows recommending the use of this program for the training of students of higher education at the first (bachelor's) level in the major 291 "International relations, public communications and regional studies" in the field 29 "International relations".
